

MEDIA RELEASE 19.03.2019

HPG makes progress in Stage 2 DA

The HPG team have made steady progress with the City of Sydney council on our final, Stage 2 detailed DA.

In December 2018, HPG were invited with the One Sydney Park team of consultants by the City of Sydney to discuss the Council's response to the submitted DA.

The team are working constructively with the City to provide further clarity and detail on issues ranging from the ecological initiatives proposed, the public art strategy, community engagement, water treatment, amongst many others.

In such a large project, it takes some time for all of the various council staff to fully comprehend the proposal, but HPG and the One Sydney Park team remain focused on bringing our amazing project to life.

Stay tuned for more updates...
